

SAP ABAP / SAP IS-U Consultant

Preetam Roy | Bangalore, India | 7020399045 | preetamroy94@gmail.com | [LinkedIn](#)

1. Professional Summary

SAP ABAP and SAP IS-U Consultant with 8+ years of experience delivering enterprise SAP solutions across utilities, manufacturing, CRM, automation, and large-scale implementation programs. Experienced in **ABAP Cloud, RAP, CDS Views, OData Services, SAP Integrations, and Clean Core-aligned development**, with a strong focus on building scalable, upgrade-safe, and maintainable SAP solutions.

Hands-on experience across **SAP IS-U** functional areas including **Business Master Data, Technical Master Data, Billing, Meter Management, Move-In/Move-Out, Correspondence, and Contract Management**. Also experienced in **SAP CRM**, automation initiatives, enterprise integrations, and production support environments.

Proven track record of delivering complex **SAP IS-U Enhancements, RTP Billing Solutions, RAP-based Applications, and Cloud-Compliant Wrapper Frameworks** while maintaining high quality standards, strong delivery ownership, and low defect leakage. Recognized for successfully delivering critical **SAP IS-U Implementation** developments with a focus on quality, performance, and on-time execution.

SAP Certified Associate – Back-End Developer (ABAP Cloud) and **SAP Certified Associate – Generative AI Developer (C_AIG)**, with end-to-end experience across solution design, development, testing, deployment, performance optimization, and stakeholder collaboration.

2. Core Expertise

- **SAP Development:** SAP ABAP, ABAP Cloud, RAP, CDS Views, OData Services
- **SAP Utilities & Functional Expertise:** SAP IS-U, RTP Billing Enhancements, Master Data, Meter Management, Utility Business Processes
- **Extensibility & Architecture:** Clean Core, BAdIs, Enhancement Framework, Wrapper Frameworks, Upgrade-Safe Technical Design
- **Database & Performance:** SAP HANA, Performance Optimization, Debugging, Root Cause Analysis

3. Certifications

- SAP Certified Associate – Back-End Developer – ABAP Cloud
- SAP Certified Associate – Generative AI Developer (C_AIG)
- PGP in Data Science & Business Analytics, Great Lakes Institute of Management.

4. Education

- PGP in Data Science and Business Analytics, Great Lakes Institute of Management, 2022
- B.Tech in Information Technology, Vellore Institute of Technology, 2016
- Class 12, CBSE Board, Centre Point School, Nagpur, 2012
- Class 10, CBSE Board, Centre Point School, Nagpur, 2010

5. Key Delivery Highlights

Representative SAP IS-U implementation deliverables involving RAP, ABAP Cloud, Clean Core architecture, billing enhancements, and utility business process automation.

Unmetered Usage Entry Application (SAP IS-U, RAP, ABAP Cloud, Fiori, CDS Views)

- Developed a custom Fiori application using an unmanaged RAP framework to facilitate manual entry of unmetered utility consumption for installations without active metering devices.
- Implemented eligibility determination based on open billing orders, automated billing period derivation, business rule validations, and posting of consumption data into standard SAP IS-U structures to support downstream billing and settlement processes.

UCDI RTP Billing Enhancement (SAP IS-U, RTP Billing, ABAP, Formula Processing)

- Developed custom logic for usage imbalance calculations, applicability determination, and RTP billing validations based on utility-specific business rules.
- Implemented formula processing and output generation enhancements to support accurate billing, settlement calculations, and downstream billing execution.

Shared Solar Billing Enhancement (SAP IS-U, Billing, EDM, Formula Processing)

- Designed and developed custom billing formulas for shared solar programs involving generation offsets, usage adjustments, and customer credit calculations.
- Built reusable EDM-based processing logic to support generation profile allocation, settlement calculations, and utility-specific billing scenarios.

Mass Installation Update Application (RAP, ABAP Cloud, SAP IS-U, CDS Views)

- Developed a RAP-based application for controlled bulk maintenance of utility installations with configurable validation and business rule enforcement.
- Improved operational efficiency by enabling automated processing of mass installation updates while maintaining data consistency and auditability.

Clean Core Wrapper Framework (ABAP Cloud, Clean Core, Wrapper Frameworks)

- Designed cloud-compliant wrapper classes around standard SAP functionality to support upgrade-safe extensibility and ABAP Cloud adoption.
- Enabled Clean Core aligned development by decoupling custom applications from direct standard object dependencies.

6. Professional Experience

Packaged App Development Senior Analyst | Accenture, Bangalore | Nov 2024 – Present

- Contribute to a large-scale SAP IS-U implementation project across design, development, testing, and deployment phases.
- Develop RAP-based applications using ABAP Cloud, CDS Views, Behavior Definitions, and OData services.
- Design Clean Core aligned, cloud-compliant wrapper frameworks to support upgrade-safe extensibility.
- Deliver SAP IS-U enhancements across billing, master data, meter management, and utility business processes.
- Implement RTP billing enhancements involving formula processing, usage validations, and custom business rules.

- Collaborate with functional consultants, architects, and business stakeholders to translate requirements into scalable technical solutions.
- Perform technical design, code reviews, debugging, defect resolution, and performance optimization activities.

Senior Developer | Cognizant, Bangalore | Jan 2021 – Oct 2024

- Reviewed business requirements and developed initial technical designs for existing system solutions.
- Developed reports for business partner information, document drill-downs, and SAP process visibility.
- Implemented technical specifications for Reports, BADI, BAPI, RFC, Proxy, and SAP PI objects.
- Worked on integration involving Windchill, SAP HANA, SAP ECC, and SAP MM.
- Developed custom CDS Views on standard tables such as MARA, ACDOCA, and VBAP for delta extraction.
- Used SAP Data Intelligence Cloud to transfer initial and delta load data from SAP to AWS S3 and evaluate transfer performance.

Associate Consultant | Capgemini, Bangalore | Jul 2019 – Dec 2020

- Managed WMIS, CRM Hub Exceptions, and EMMA Cases simultaneously and resolved technical issues.
- Worked across SAP IS-U processes including move-in, move-out, Business Master Data, and Technical Master Data.
- Reduced incident inflow through automation and proactive problem record fixes.
- Mentored team members and trained young professionals for project roles.
- Prepared SOPs with workarounds and solutions for business exceptions and errors.
- Analyzed and resolved production technical exceptions and debugged ABAP reports, standard transactions, classes, and reports.
- Gained exposure to ITSM processes using ServiceNow.

Senior Analyst | Capgemini, Bangalore | Jun 2018 – Jun 2019

- Studied source systems and existing data analytics processes to understand user requirements.
- Prepared technical specification documents, data models, and aggregates to support strategic decision-making.
- Conducted feasibility studies for technology-related requirements.
- Mapped client requirements, participated in business user meetings, and supported project planning and scheduling.
- Designed, developed, and maintained RPA solutions.
- Debugged standard transactions, classes, and reports to identify solutions.

Technical Associate | Quess Corp., Bangalore | Mar 2017 – Nov 2017

- Resolved networking errors for corporate users and prioritized incidents related to HP printer hardware and software.
- Worked on service management activities using Microsoft Dynamics 365.

7. Achievements

- Recognized for successfully delivering critical SAP IS-U implementation developments with strong technical quality and delivery commitment.
- Received Centrica Delivery Excellence Award for exceptional performance in UKC Paris Engagement.

- Received Capgemini Firefighter Award for outstanding performance and contribution in Europe for 2018.
